

Enhancing Life,
Inspiring good Health.

supreme Health

Good Health, Globally.

INTRODUCTION

Supreme Pharma Healthcare Pvt. Ltd. (also referred as **Supreme Health**) is one of the fastest growing Indian pharmaceutical companies that is driven by quality and powered by innovation. We provide the highest quality in pharmaceuticals with best possible care for all patients across several verticals.

Relentless hunger for excellence and growth keeps us focused on our objective and drives us harder towards innovation. We believe that constant innovation alone can help us in maintaining the well-earned customer satisfaction and trust in terms of quality, availability and after-sales service of medicines.

Supreme Health is extremely vigilant in establishing and maintaining absolute standards for world-class quality by delivering nothing but the best. Our state-of-the-art manufacturing facility is compliant with all international norms and is constantly evaluated for continual improvement.

We have registered tremendous growth, not just in sales volume, but also in the trust and brand value that we have built over the years. Our aggressive approach towards use of sophisticated technology accelerated our objective of bringing affordable medicines to the masses.

Standing true to our name, we deliver SUPREME quality pharmaceutical products to make this world an affordable and a healthier place to live in.

MANAGING DIRECTOR MESSAGE

Supreme Health - The Dawn in healthcare

It is my sincere belief that it is because of the trust and confidence shown by our valued customers, the strategic alliances we have with leading scientific and business partners, and the outstanding commitment exhibited by our employees, that Supreme Health has consistently delivered on its promises. Supreme Health understands the changes that are taking place in the business models of pharmaceutical organizations. These include decreasing costs of R&D, promoting innovation, enhancing productivity and exploring newer markets.

With a vision to revolutionize the healthcare industry, **Supreme Health** is keen on establishing itself as a decisive force in the marketplace on the basis of strategic leadership, innovation, reputation, quality manufacturing procedures and excellence in management practices. We assure all our customers of the highest ethical standards in all our business practices. We will continue to strive for the benefit of our consumers, clients, business partners, employer and the society at large through excellence in strategic scientific leadership and commercial success.

I strongly believe in the idea of Conscious Capitalism. It is aptly said in the words of Ed Freeman, a professor from Darden School of Management and a trustee of Conscious Capitalism, Inc.,

“We need red blood cells to live (the same way a business needs profits to live), but the purpose of life is more than to make red blood cells (the same way the purpose of business is more than simply to generate profits).”

With the exceptional teamwork, entrepreneurial skills and insightful corporate strategies, Supreme Health has already tasted the sweetness of extraordinary success in the past few years, and shall always continue to work for the betterment of the society.

SUPREME HEALTH - AN OVERVIEW

Our Vision: We are one of the fastest growing generic pharmaceutical companies of the world. We aim to be a world class leader in global generic pharmaceutical market as soon as possible, by delivering supreme quality products.

Our Mission: We believe in a healthier tomorrow and hence we have been on a mission towards a globe that remains in its pink of its health for a very long time to come.

Our Values: Our values are ambitiously humane which drive and define us.

- **Teamwork:** We believe in the potential inherent in every human being and hence we strive towards bringing it out to its fullest by working as a team.
- **Family Culture:** Together, we form a family who work towards the betterment of the organization, society and the world.
- **Service Excellence:** Exceptional service is one value which is worthy of pursuit both in terms of customer satisfaction and personal growth. We ensure that this value is incorporated in every aspect of our business process, small or big.

Enhancing
Life,
Inspiring good
Health.

Insert Product list

OUR CODE OF CONDUCT:

SAFETY: - Protecting life with SAFER pharmaceutical products.
The product is free from unknown side effects when used as directed.

IDENTITY: - Uniqueness of identity.
The identity of all our products is well established and is exactly as per the description present on the label. All personnel, equipment, actions and decisions involved in its production are identified and documented so that the process can be reconstructed from the records.

STRENGTH: - STRENGTHENS health for better life.
Our product effectively delivers what its label claims throughout the product's shelf life.

PURITY: - PURITY is our priority.
Our product is free from microbial, chemical and physical contamination.

QUALITY: - QUALITY products, you can trust.
All our products meet the regulatory requirements wherever it is sold and the product quality can be replicated consistently, time after time.

Every single product that rolls out of our facility has our guarantee of SUPREME (SISPQ compliant) quality.

MANUFACTURING

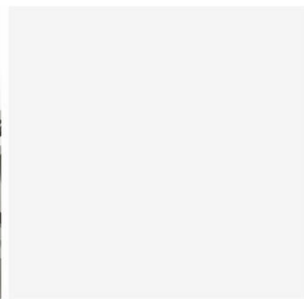

Supreme Health has state-of-the-art manufacturing facility capable of producing wide range of therapeutic products. Our elaborate set up consists of advanced manufacturing systems with uncompromising standards as stipulated by the regulatory agencies.

Supreme Health has built its manufacturing facility in Gujarat, India. The plant has a total built up area of 4850 sq.mt., across an area of 11,000 sq. mt. The facility can handle a vast majority of dosage forms like bi-layered tablets, capsules, sachets, orally disintegrating tablets and conventional dosage forms.

Our manufacturing facility has tremendous scope for innovative design, customization, and has provision for further expansion in the near future. The contemporary manufacturing facilities have bolstered our proficiency in GMP / non-GMP processes giving us a highly competitive edge over the competitors.

Some of the salient features of manufacturing at **Supreme Health** are:

- Our modern manufacturing facilities are cGMP compliant (current Good Manufacturing Practices) in conformity with both national and international standards.
- Our facilities are equipped with hi-tech sophisticated machineries to achieve a high level of accuracy and precision.
- Our quality control laboratories have the latest high precision equipments that deliver quality at every stage of processing including inputs. Our dedicated pool of talented individuals work as a team consistently to ensure that the highest quality and safety standards are built into our products.
- We have stability chambers for all ICH conditions with continuous monitoring.
- We maintain the same quality standard and deliver world-class quality for our products & services across overseas markets, thereby ensuring that every patient has access to the best medicines in the world.
- We constantly upgrade our manufacturing facilities and adapt latest technological innovations in our facilities to consistently excel and produce high quality medicines at an affordable price.

RESEARCH AND DEVELOPMENT

Research is the seed to development, and development leads to innovation and growth. We believe in innovation and growth – one of the prime reasons that drive us to work relentlessly to cater the world with quality products. One of the aspirations of **Supreme Health** is to be known as science and research driven Indian Pharmaceutical Company. Our highly experienced Technocrat Directors, Researchers on our advisory board and qualified scientists are working on various acute and chronic therapeutic segments by focusing on the best in class schedules and cost effective formulas.

Presently, our focus is on development of new products by using QbD and Risk Evaluation principles and generating the data required for filling with different regulatory agencies including Europe, Middle East and North Africa (MENA), South Africa, Latin America, Common Wealth of Independent States (CIS) and South-East Asia (SEA).

We also work towards strengthening our intellectual property, patenting new products and developing ultramodern technology. R&D is the backbone of our company and we spend over 5% of the total turnover each year towards maintenance of the product standards.

OUR PRESENCE

We are constantly engaged in delivering value to global customers through innovative technologies, products and services. Our primary focus is to export high quality generic medicines at affordable prices.

We have encouraged strategic partnerships/alliances for product development, technical support and marketing, and assisted several nations in their quest for self-reliance in meeting their medicinal requirements.

RUSSIA & CIS:	Ukraine, Georgia, Armenia, Russia, Tajikistan, Kyrgyzstan, Moldova
ASIA:	Malaysia, Vietnam, Philippines, Sri Lanka, Cambodia, Myanmar, Nepal, Bhutan, Mongolia, Yemen, Afghanistan, Hong Kong
AFRICA:	Kenya, Uganda, Tanzania, Nigeria, Ghana, Zambia, Congo, Malawi, Ivory, Coast, Burkina Faso, Gabon, Cameroon, Guinea Bissau, Burundi, Madagascar, Democratic Republic of Congo, Angola, Liberia
LATIN AMERICA:	Santo Domingo, Ecuador, El-Salvador, Costa Rica, Panama, Cuba, Haiti

QUALITY ASSURANCE

Supreme Health has dedicated plants for technologically-challenging formulation across various therapeutic categories such as Analgesics (Pain Management), Antacids (Gastrology), Antibiotics, Cardiovascular Drugs (Hypertension) and Erectile Dysfunction. Our manufacturing facilities are WHO GMP certified. We have also received accreditation from the following countries:

- Uganda • Vietnam • Ghana • Kenya • Nigeria • Sri Lanka • Zambia
- BurkinaFaso • Tanzania • Cameroon • Malawi • Congo

We believe in maintaining world-class business practices to ensure that our products meet all national and international standards. We follow a well-defined and thoroughly documented standard of quality procedures and systems for all our business practices.

Quality implies continuous improvement. We continuously upgrade our best practices to keep pace with the ever changing global scenario.
